

User guide – Mail access

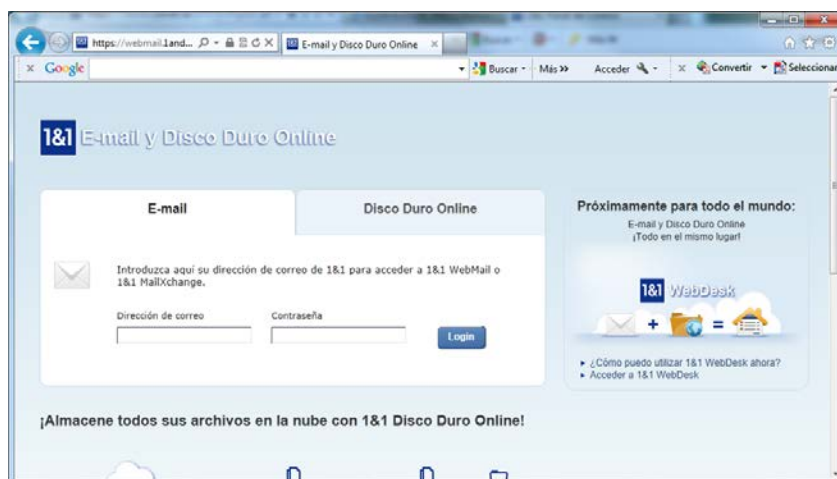

You can see your account email of Equivalenza from any computer which has access to internet via Webmail service.

For accessing to mail you have to open a new tab on your browser, for instance "Internet Explorer", "Mozilla Firefox" or "Google Chrome". Once open, you have to write on address bar browser the following URL: <http://webmail.equivalenza.com>, and then push "Enter" button.

In the following pictures you can see an example from both browsers.

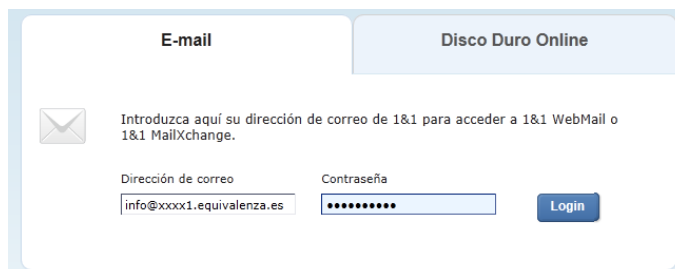

On the browser appear the next page:

You write on the textbox located below "Address mail" your email account , and the following textbox located below "Password" your access password. Remember: your password is case sensitive.

Access example

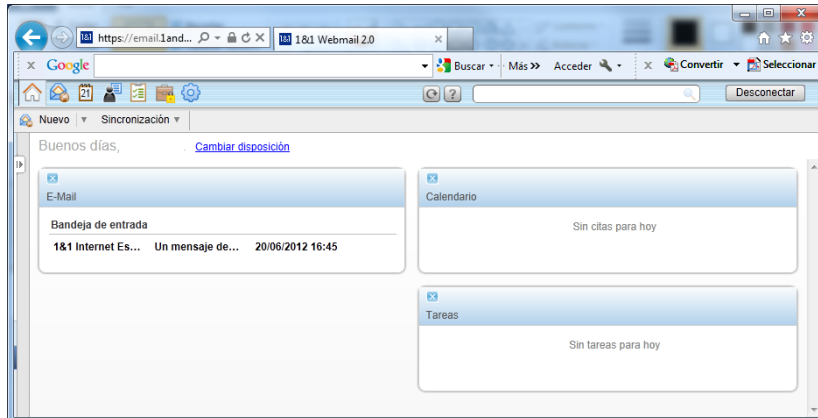

The screenshot shows the login form with the following details:

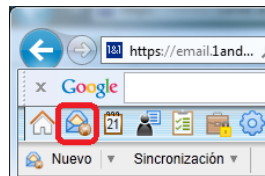

- Section: E-mail
- Text: Introduzca aquí su dirección de correo de 1&1 para acceder a 1&1 WebMail o 1&1 MailXchange.
- Input fields: "Dirección de correo" (containing "info@xxx1.equivalenza.es") and "Contraseña" (containing "*****").
- Button: "Login"

Once written your details access push "Login"

The browser will show the main page system mail.

Push on cover letter icon to access mail list.

And now, you will see a screen similar the next picture where you can manage your mails.
